

Margaret Hurdman

**INTERNATIONALLY
RENOWNED
MEDIUM**

Margaret's popular stage appearances bring her gift out into the world. She brings comfort to many and chooses to do stage demonstrations to bring her gift to as many as possible.

She is driven to pass on the knowledge with which she has been entrusted, her theatre demonstrations and shows are always full of her unique humour and personality that endears her to her audiences worldwide.

Margaret takes her work very seriously and although we must always announce (in keeping with a new EU directive) that her appearances are classed by the EU for entertainment, Margaret does not agree that her work for the Spirit World should only be classed as entertainment. Margaret simply asks that anyone attending any event does so with an open mind and judges for themselves!
